Official Scoring Matrix & Tie-Breakers

Scores reset to zero at the start of each stage. Stage scores equal Placement Points + Kill Points.

Placement Points Table

-

Placement	Points Awarded	Placement	Points Awarded
1st Place (Booyah)	+12 Points	**7th Place**	+4 Points
2nd Place	+9 Points	**8th Place**	+3 Points
3rd Place	+8 Points	**9th Place**	+2 Points
4th Place	+7 Points	**10th Place**	+1 Points
5th Place	+6 Points	**11th Place**	0 Points
6th Place	+5 Points	**12th Place**	0 Points

Kill Points

- **+1 Point** for every verified kill.

Tie-Breaker Protocol

If two or more teams finish tied on points for qualification:
1. **Total Number of Booyahs**: The team with the highest number of first-place match wins across the entire phase breaks the tie first.

2**. Total Number of Kill Points (Eliminations)**: If the teams are still tied, the team with the highest total accumulated elimination points across all matches in that phase takes precedence.

3. **Most Recent Match Placement**: If a tie persists after checking Booyahs and kills, the teams are ranked based on their placement in the most recent match they mutually contested.

Operational & Feasibility Notes

- **Even Distribution:** Running 2 groups per day across Tuesday, Wednesday, and Thursday distributes the workload evenly (just one 2h 15m slot per evening) instead of cramming multiple shifts onto exam days.
- **Room Capacity Compliance:** Free Fire MAX custom rooms support a strict maximum of 12 squads (48 players). Splitting 104 teams into 9 groups (5 of 12, 4 of 11) ensures no lobby exceeds the in-game limit.
