FSCALER SCHOOL OF TECHNOLOGY

YUGAANTAR 2026 | THEME: GAMEVERSE

YUGAANTAR BATTLEGROUND

Standard Operating Procedure — BGMI Tournament

Scaler School of Technology hereby declares Yugaantar Battleground, the official BGMI tournament of Yugaantar 2026 under the theme GAMEVERSE. This document is the governing Standard Operating Procedure of the tournament. It sets out the format, rules, and conduct that shall apply to every registered team, volunteer, and member of the Events Team for the duration of the event, and is binding upon all parties from the moment of registration.

1. Tournament Flow

Yugaantar Battleground shall be contested in three stages — a Qualifier Round and a Semifinal Round played online on two separate days, followed by a Final played on campus on event day. The exact dates for the Qualifier and Semifinal rounds shall be announced separately.

Stage	Day	Who Competes	Where
Qualifier Round	Day 1	All registered teams	Online (custom room)
Semifinal Round	Day 2	Teams advancing from the Qualifier Round	Online (custom room)
Final	Event Day	Top 16 to 18 teams from the Semifinal Round	On Campus

1.1 Group Formation & Scaling

Groups for the Qualifier Round shall be formed based on the final count of registered teams, following the scaling rule below. The same rule shall apply to the Semifinal Round, recalculated for the smaller pool of advancing teams.

- The default configuration shall be 4 groups, with group size calculated as Total Teams ÷ 4.
- No group shall exceed 20 teams. Where Total Teams ÷ 4 exceeds 20, the number of groups shall be increased so that every group stays within the 20-team limit — calculated as Number of Groups = ceiling(Total Teams ÷ 20).
- The exact number of groups and the size of each group shall be finalized and announced by the Events Team once registration closes.

Total Teams	Groups	Teams per Group
64	4	16
72	4	18
80	4	20
88	5	~18 (distributed evenly)

1.2 Match Reshuffle System

Groups shall not remain fixed across matches within a stage.

- After the conclusion of each match, all teams competing in that stage shall be reshuffled and redistributed into freshly formed groups for the next match.
- This system ensures no team meets the same set of opponents twice within a stage.
- A team's ranking shall be determined by its cumulative points across every match played that day, independent of which group it was placed in for any individual match.

1.3 Day 1 — Qualifier Round

1. All registered teams shall compete on Day 1.
2. Teams shall be divided into groups as per the scaling rule in Section 1.1.
3. Each group shall play a set of matches (recommended: 3), rotating Erangel and Miramar, with groups reshuffled after each match as per Section 1.2.
4. At the end of Day 1, all teams shall be ranked by cumulative points across every match played. The top teams — approximately half the field, with the exact cutoff finalized by the Events Team based on final registration numbers — shall advance to Day 2.

1.4 Day 2 — Semifinal Round

1. Teams advancing from Day 1 shall compete on Day 2.
2. Teams shall be regrouped as per the scaling rule in Section 1.1, recalculated for the smaller pool.
3. Each group shall play a set of matches (recommended: 3), with groups reshuffled after each match as per Section 1.2.
4. At the end of Day 2, all teams shall be ranked by cumulative points across every match played. The top 16 to 18 teams shall advance to the Final.

1.5 Final — Campus (Event Day)

The top 16 to 18 teams from the Semifinal Round shall compete as a single group on campus. Cumulative points across the final matches (recommended: 3 to 4) shall determine the winner, runner-up, and third-place team. Full execution details are set out in Section 4.

2. Registration & Eligibility

1. Each team shall consist of 4 players and 1 optional substitute. The substitute shall be registered in advance; no addition shall be permitted thereafter.
2. Every player shall submit their in-game BGMI ID/IGN and a valid college ID or roll number at the time of registration.
3. No player shall be part of more than one team. A team found in violation, along with any other team involved, shall be disqualified.
4. Registration shall close on the announced date and time. No entries shall be accepted thereafter.

3. Match Rules & Regulations

The following rules govern every match played under Yugaantar Battleground, adapted from official BGMI tournament standards.

3.1 General Conduct

- Teams shall report and check in at least 15 minutes before their scheduled match slot. Failure to do so shall result in forfeiture of the match.
- All participants shall conduct themselves respectfully toward opponents, the Events Team, and spectators at all times. Abusive language or harassment, in-game or in person, shall result in immediate disqualification.
- Only registered players shall participate in a match. Playing on behalf of a teammate ("ghosting") is strictly prohibited.

3.2 Match Settings

- All matches shall be played in Classic mode, Squad TPP, in a Custom Room.
- Erangel and Miramar shall be the maps in rotation.
- The Room ID and password shall be shared exclusively in the official participant group, a fixed number of minutes before each match, and at no point in advance.
- Players shall use the latest official version of BGMI. Technical issues on a player's end — network or device — shall remain the player's responsibility and shall not be grounds for a replay, unless caused by the room or server itself.

3.3 Fair Play & Anti-Cheat

- The use of hacks, mods, emulators, or any unauthorized third-party tool shall result in immediate disqualification of the entire team.
- Teaming with a rival squad, stream-sniping, or deliberately feeding eliminations is strictly prohibited.
- Match volunteers shall be entitled to spectate any match, and the Events Team may require a player to screen-record or screen-share live, particularly during the final, to verify fair play.
- Exploiting in-game bugs or glitches for unfair advantage shall be treated as equivalent to hacking.

3.4 Scoring System

Placement	Points
1st (Winner Winner Chicken Dinner)	10
2nd	6
3rd	5
4th	4
5th	3
6th	2
7th–10th	1
Each Elimination (kill)	1

The ranking at each stage shall be determined by total points accumulated across all matches of that stage. Ties shall be broken, in order, by total eliminations, then by number of Winner Winner Chicken Dinners, then by best average placement.

3.5 Penalties & Disqualification

- Warning: issued for minor violations such as late check-in; no point deduction shall apply on the first instance.
- Point Deduction: shall apply for repeated minor violations or misuse of a teammate's slot.
- Match Forfeit: shall apply where a team fails to appear within the grace period of 5 to 10 minutes past the scheduled start.
- Disqualification: shall apply for hacking, teaming, harassment, or submission of fraudulent registration details.
- The decision of the Events Team on any penalty shall be final.

3.6 Game Setup

Item	Rule
Devices	BYOD (phone, charger, headphones)
Accounts	Players must use their own BGMI IDs
Internet	Wi-Fi provided; players responsible for device stability
Equipment	No external equipment of any kind on the device — no controllers, or emulators. Bare device only.

4. Event Day — Campus Final

1. The qualifying teams (16 to 18, as finalized at the end of Day 2) shall check in at campus and receive their slot number and schedule.
2. A briefing on rules and conduct shall be conducted for all teams before the first final match.
3. The Room ID and password shall be shared exactly as per schedule. The Events Team shall confirm that all qualifying teams have joined before each match begins.
4. Volunteers shall spectate every match and may broadcast the gameplay live on a projector for the audience.

5. The leaderboard shall be updated after every match.
6. Upon conclusion of the final match, results shall be announced, followed by prize distribution and the formal close of the event.

5. Dispute Resolution

- Any dispute regarding a match shall be raised by the team captain to the Events Team within 15 minutes of the match's conclusion.
- The Events Team shall review all available evidence — volunteer observation, the projector broadcast, or a player's screen recording — and issue a decision at the earliest.
- The decision of the Events Team shall be final and binding.

6. Contingency (Event Day)

- In the event of a room or network failure, a backup custom room shall be activated and the match restarted rather than resumed.
- In the event of a power outage, backup power shall be provided for the projector and broadcast setup, as well as player charging points.
- In the event of a medical emergency, the nearest first-aid point shall be identified in advance, with the Events Team as the first point of contact.
- A buffer of 30 to 45 minutes shall be built into the schedule to absorb any delay without affecting prize distribution.

7. Prizes

The following prizes shall be awarded to the top three teams of the final:

Position	Prize
1st Place	₹4,000
2nd Place	₹2,400
3rd Place	₹1,600
